

community guitar

The right songs. The right skills. The right people.

Community Guitar classes focus on the skills, styles and songs that really lend themselves well to playing with others rather than alone.

They are designed to help you:

- *Connect* with other players at your level.
- *Develop* strong rhythm & lead skills.
- *Enjoy* structured jam opportunities.
- *Build* a shared, eclectic repertoire.
- *Integrate* essential music theory.
- *Understand* the fingerboard.
- *Work* out your jam-jitters.
- *Have* a blast.

Andrew Lawrence offers these 10-week group sessions at three levels, so there's place for you whether you just finished your first beginning guitar book or you're ready to cop licks from some of the best players on the planet. Please contact Andrew for more information and a free level assessment.

We look forward to picking with you.
